

THE SILK ROADS: A HISTORY

**The Western Barbarians, the Persians
and the Greeks**

Political and Military Developments—Conquests

The Han and the Parthians

Political and Military Developments—Conquests

The Romans, The Byzantines, and the Sassanins

Political and Military Developments—Conquests

Technological Developments—methods of trading,
movement, infrastructure

Technological Developments—methods of trading,
movement, infrastructure

Technological Developments—methods of trading,
movement, infrastructure

**The Western Barbarians, the Persians
and the Greeks**

Diffusion—major goods, products, ideas

Syncretism—any specific examples of ideas blended
together to produce something new?

Any other factors that might have facilitated trade along
the Silk Roads during this era?
